

INDEX OF PAPERS

Absorption of Chlorine into Aqueous Sodium Carbonate Solutions and Desorption of Carbon Dioxide — H. Hikita, S. Asai, Y. Konishi and K. Seo	487	Dynamic Analysis and Simulation of a Helium-Heated Steam Reformer — Takeshi Miyasugi, Shinichi Koaska and Akira Suzuki	759
Absorption of Chlorine in Aqueous Solutions of Urea — R. N. Lahiri and M. M. Sharma	440	Dynamics of Adsorption Columns with Bacterial Growth Outside Adsorbents — Chi Tien and Shu-Chieh Wang	363
Acidophilic Fungus SCP from Peat Hydrolyzate — Jacques M. Boa and Anh Leduy	532	Effect of Chromium Exchange Level on the Cracking and Dehydrocyclization of n-Heptane on CrHNaY Zeolite Catalysts, The, Kinetic and Spectroscopic Study, — A. L. Agudo, A. Asensio and A. Corma	50
Adsorption de Colorants Ioniques sur des Fibres de Laine Carbonisées — Francis Perineau, Karim Farag, Jacques Molinier et Antoine Gaset	377	Effect of Freon-12 Exposure on the Sieving Property of 4A Zeolite — Ravi Kumar	577
Agitation de Fluides Pseudoplastiques par un Agitateur Bipale — J. Bertrand et J. P. Couderc	738	Effect of Pressure on Separation Efficiency in Packed Distillation Columns — Henry Z. Kister and Ian D. Doig ..	155
Analysis of Fluid Friction in Dense-Phase Pipeline Flow — Kenneth C. Wilson and Nigel P. Brown	83	Effect of Liquid Wetting on Catalyst Effectiveness in Trickle Bed Reactors — V. Capra, S. Sicardi, A. Gianetto and J. M. Smith	282
Annular-to-Wavy Flow Pattern Transition during Condensation Inside Horizontal Tubes, On the — H. M. Soliman	475	Effect of Surfactant on Terminal Velocity of and Mass Transfer from a Fluid Sphere in a Non-Newtonian Fluid, The — Y. Kawase and J. J. Ulbrecht	87
Assimilation of vander Waal's Fluid in an Extended Law of Corresponding States, The — Robert E. Peck	446	Effectiveness and Performance of a Catalyst Pellet with Bimodal Kinetics — G. K. Chitnis and E. E. Wolf ..	522
Biotraitement aerobie, en reacteur completement agite, d'une eau residuaire de laiterie — R. C. Mayer, D. Rouleau et G. Royer	635	Elutriation Characteristics of Solids from Liquid Fluidized Bed Systmes. Part I. Onset of Elutriation — U. P. Ganguly	466
Breakthrough Analysis of Noncatalytic Solid-Gas Reactions — Nerse Orbey, Gulsen Dogu and Timur Dogu	314	Elutriation Characteristics of Solids from Liquid Fluidized Bed Systems. Part II. Prediction of Equilibrium Bed Concentration — U. P. Ganguly	470
Break-Up of Jets in Power Law Non-Newtonian-Newtonian Liquid Systems — Yoshiro Kitamura and Teruo Takahashi	723	Enhancement of Interfacial Activity of Petroleum Sulphonates by Addition of Sulphite Spent Liquors — V. Hornof, G. Neale and F. Jacovella	331
Bubble Deformation in High-Velocity Gas Injection — P. E. Anagbo	220	Entrainment by an Axisymmetric Two-Phase Jet — Viswanath Subramanian and Raman Ganesh	433
Characterization of Zeolite Acidity I. The Cracking of 2 mole % n-Butane over a Fixed Zeolite Bed — H. Rastelli, Jr., B. M. Lok, J. A. Duisman, D. E. Earls and J. T. Mullhaupt	44	Entrainment by a Concentric Jet with Particles in the Secondary Stream — Viswanath Subramanian and Raman Ganesh	589
Chemical Equilibrium Model for Interfacial Activity of Crude Oil in Aqueous Alkaline Solution, A: The Effects of pH, Alkali and Salt, — Mankin Chan and Teh Fu Yen	305	Estimation of Liquid Film Mass Transfer Coefficients for Columns Randomly Packed with Partially Wetted Rings — Anthony B. Ponter and Patrick H. Au-Yeung	94
Chemistry of Catalyst Poisoning and the Time on Stream Theory, The — M. R. Viner and B. W. Wojciechowski	127	Estimation of Vapor Pressure from Normal Boiling Point of Hydrocarbons — N. V. K. Dutt	707
Chromatographic Study of Diffusion of Single Components and Binary Mixtures of Gases in 4A and 5A Zeolites, A — Ravi Kumar, Robert C. Duncan and Douglas M. Ruthven	493	Etude des Caracteristiques de l'Ecoulement cree par une Turbine à Barreaux Croisés dans une Cellule de Flottation — Influence du Nombre de Barreaux et de la Viscosité du Liquide. I. Détermination de la Capacité de Pompage et de l'Intensité de Turbulence — J. Costes, C. Alran et J. P. Couderc	105
Coating Flows with Interfacial Air Drag. A Nonlinear Theory — K. D. P. Nigam and M. N. Esmail	453	Etude des Caracteristiques de l'Ecoulement cree par une Turbine à Barreaux Croisés dans une Cellule de Flottation — Influence du Nombre de Barreaux et de la Viscosité du Liquide. II. Puissance Consommée et Analyse Spectrale — J. Costes, C. Alran et J. P. Couderc	110
Colour Removal from Kraft Mill Caustic Extraction Effluent Using Calcium — M. Nasr and D. G. MacDonald	450	Evaluation of Capital Cost Data: Onsite Utilities (Industrial Gases) — Donald R. Woods, Susan J. Anderson and Suzanne L. Norman Sills	173
Combustion of Low Heating Value Fuels and Wastes in the Spouted Bed — H. A. Arbib and A. Levy	528	Evaluation et comparaison des parameters de la dispersion axiale dans les deux phases d'une colonne extraction a plateaux alternatifs — A. Bensalem, L. Steiner et S. Hartland	603
Computer Control of Holdup in a Reciprocating Plate Extraction Column — P. A. Taylor, M. H. I. Baird and I. Kusuma	556	Evidence for Bulk-Phase Nitrogen Dissolution in Iron in Catalytic Ammonia Synthesis — A. K. Jain, R. R. Hudgins and P. L. Silveston	809
Correlations for Prediction of Molecular Diffusivities in Liquids — W. Hayduk and B. S. Minhas	295	Explicit Method of Design of Non-isothermal Tube-Wall Reactor with Volume Change, An — S. K. Goyal, M. N. Esmail and N. N. Bakhshi	627
Coupling of Mixing and Microbial Kinetics for Evaluating the Performance of Bioreactors — R. K. Bajpai and M. Reuss	384	Flash Pyrolysis of Aspen-Poplar Wood, The — D. S. Scott and J. Piskorz	666
Deactivation Studies of Nickel Catalysts Used in the Methanation of Carbon Monoxide — P. K. Bajpai, N. N. Bakhshi and J. F. Mathews	4	Flottation de Spheres et de Cylindres, La — P. Gapany, M. Leidi et S. Hartland	235
Dependence of Diesel Fuel Bulk Modulus on Temperature and Pressure — K. S. Varde	710		
Determination of Active Metal Sites in Metal Oxide Catalysts by Selective Gas Chemisorption — S. Parkash ..	23		
Determination d'un Champ de Vitesses par Anemometrie a Filme Chaud dans des Domaines a Turbulence elevee. Application a des installations de decantation et d'agitation. — C. Gourdon, J. Costes et S. Domenech	748		

INDEX OF PAPERS

Absorption of Chlorine into Aqueous Sodium Carbonate Solutions and Desorption of Carbon Dioxide — H. Hikita, S. Asai, Y. Konishi and K. Seo	487	Dynamic Analysis and Simulation of a Helium-Heated Steam Reformer — Takeshi Miyasugi, Shinichi Koaska and Akira Suzuki	759

Deactivation Studies of Nickel Catalysts Used in the Methanation of Carbon Monoxide — P. K. Bajpai, N. N. Bakhshi and J. F. Mathews	4	Flottation de Spheres et de Cylindres, La — P. Gapany, M. Leidi et S. Hartland	235
Dependence of Diesel Fuel Bulk Modulus on Temperature and Pressure — K. S. Varde	710		
Determination of Active Metal Sites in Metal Oxide Catalysts by Selective Gas Chemisorption — S. Parkash ..	23		
Determination d'un Champ de Vitesses par Anemometrie a Filme Chaud dans des Domaines a Turbulence elevee. Application a des installations de decantation et d'agitation. — C. Gourdon, J. Costes et S. Domenech	748		

Flow of Stratified Slurries Through Horizontal Venturi Meters — C. A. Shook	342	Liquid-Liquid Equilibria for Acetonitrile-Methanol-Paraffin and Acetonitrile-Ethanol-Paraffin Systems — I. Kikic, P. Alessi, I. Colussi, and M. Orlandini Visalberghi	168
Forced Convection Heat Transfer in Low Prandtl Number Turbulent Flows: Influence of Axial Conduction — Shong-Leih Lee	482	Liquid-Liquid Extraction by a Suspended Slug — M. H. I. Baird and K. R. Krovvidi	569
Fundamental Study on Recovery of Copper with a Cation Exchange Membrane, A. — Part I. Ion Exchange Equilibria Between Cupric and Hydrogen Ions, — Toshinori Kojima, Shintaro Furusaki, Kenji Takao and Terukatsu Miyauchi	642	Mass Transfer Modelling for GS Heavy Water Plants. Part I. Point Efficiency of GS Sieve Trays — H. J. Neuburg and K. T. Chuang	504
Fundamental Study on Recovery of Copper with a Cation Exchange Membrane, A. Part II. Transfer Rate of Copper and Hydrogen Ion Through a Cation Exchange Membrane — Toshinori Kojima, Shintaro Furusaki and Kyoichi Saito	650	Mass Transfer Modelling for GS Heavy Water Plants. Part II. Tray Efficiency on GS Sieve Trays — H. J. Neuburg and K. T. Chuang	510
Gold Tracer in the Study of Atmospheric Oxidation of Sulfur Dioxide, Use of — Richard D. Rowe, Matt F. Mohtadi, Jan J. Havlena, Douglas I. Exall, and Stephen F. Benjamin	141	Mass Transfer Study of a New Electrochemical Reactor Stirred by Gases Evolved at the Counter Electrode, A — G. H. Sedahmed and L. W. Shemilt	767
Heat and Mass Transfer Multiplicity in Exothermic Gas Absorption — J. C. Allan and R. Mann	566	Methanation of Carbon Monoxide over Alumina Supported by Ni-Cu Catalysts — B. K. Bajpai, N. N. Bakhshi, Liu Dan-Chu and J. F. Mathews	613
Heat Transfer and Axial Dispersion in Batch Bubble Columns — B. H. Chen and A. F. McMillan	436	Method of Estimating Entropies of Coals and Coal Liquids, A — S. Ikumi, C. C. Luo and C. Y. Wen	551
Heterogeneous Catalysis Rate Parameters in a Gradientless Reactor by the Method of Moments — G. Garza-Tobias, J. Jimenez-Ocana and M. A. Rosales	123	Microscopic Structure of Athabasca Oil Sand — Koichi Takamura	538
Hydraulic Behavior of Synthetic Non-Woven Filter Fabrics — A. L. Rollin, R. Denis, L. Estaque and J. Masounave	226	Minimum Spouting Velocity for Binary Mixtures of Particles — T. Ishikura, H. Shinohara and K. Funatsu	697
Hydrodynamics and Mass Transfer Characteristics of Bubble and Packed Bubble Columns with Downcomer — J. S. Gopal and M. M. Sharma	353	Modeling of Flow Nonuniformities in Fissured Porous Media — Robert W. Lyczkowski	61
Hydrodynamic Transport of Cylindrical Capsules in a Vertical Pipeline — B. Latto and K. W. Chow	713	Modeling of Shallow Fluidized Bed Reactors. I. Analytical Solution of a Simplified Model — C. C. Chang, L. T. Fan and S. X. Rong	272
Indirect Determination of Biomass Concentration in Fermentation Processes — J. H. T. Luong and B. Volesky	163	Modeling of Shallow Fluidized Bed Reactors. II. Analytical and Numerical Solutions — C. C. Chang, S. X. Rong and L. T. Fan	781
Interfacial Tension and Phase Behaviour Characteristics of Petroleum Sulfonate/Lignosulfonate Mixtures — J. E. Son, Graham H. Neale and Vladimir Hornof	684	Nature of the Active Sites in Cumene Cracking on Amorphous Silica Aluminas, The — M. Marczewski and B. W. Wojciechowski	617
Interfacial Tensions of Oil, Water, Chemical Dispersant Systems — Donald Mackay and Khon Hossain	546	New Velocity Profile Model for Turbulent Pipe-flow of Power-law Fluids, A — A. V. Shenoy and D. R. Saini	694
Investigations on the Formation of Air Core in Swirl Atomisers — S. K. Som and S. N. Sen	153	One-Dimensional Model of Plug Flow Pneumatic Conveying, A — Shu-Ming Chan, D. Remple, C. A. Shook and M. N. Esmail	581
Kinetics of Absorption of SO ₂ in Calcium and Magnesium Oxides, The — J. Dean Thibault, Frank R. Steward and Douglas M. Ruthven	796	Operating Characteristics and Energy Distribution in a Nitrogen Transferred Arc Plasma — P. Tzantrizos and W. H. Gauvin	822
Kinetic Parameter Determination in Monoculture and Monosubstrate Biological Reactors — L. Rizzuti, V. Augugliaro, L. Dardanoni and M. V. Torregrossa	608	Optimization of Copper Chloride Based Catalysts for Ethylene Oxyhydrochlorination — Adolfo Arcoya, Antonio Cortés and Xose L. Seoane	55
Laminar Flow Past a Permeable Sphere — K. Nandakumar and Jacob H. Masliyah	202	Optimum Performance Data for the Leaching of Roasted Chalcocopyrite Concentrate in a Jet Contactor — R. C. Jain, S. Madhavan, D. K. Acharjee and P. Sen Gupta	516
Leaching in a Bubble-Column Slurry Reactor — I. G. Dalla Lana, D. S. Scott and M. Abou-El-Hassan	399	Overview of Discrete Stochastic Controllers: Generalized PID Algorithms with Dead-Time Compensation, An — T. J. Harris, J. F. MacGregor and J. D. Wright	425
Liquefaction of Aspen Poplar Wood — R. L. Eager, J. F. Mathews and J. M. Pepper	289	Oxydation Photocatalytique des Hydrocarbures sur Ta ₂ O ₅ /SiO ₂ — P.-C. Roberge, et S. Kaliaguine	574
Liquefaction of Coal by SRC-II Process. Part I. A New Kinetic Model — C. P. P. Singh, Y. T. Shah, N. L. Carr and M. E. Prudich	248	Ozonation of Organic Compounds in Alkaline Aqueous Media — S. Imamura, H. Umena, N. Kawabata and M. Teramoto	853
Liquefaction of Coal by SRC-II. Part II. Simulation of an SRC-II Recycle System — C. P. P. Singh, Y. T. Shah and N. L. Carr	261	Photocatalytic Oxidation of Various Compounds Over TiO ₂ and Other Semi-conductor Oxides; Mechanistic Considerations — P. Pichat, J.-M. Hermann, H. Courbon, J. Disdier and M.-N. Mozzanega	27
Liquefaction of Coal by SRC-II Process. Part III. Reactivity of Liquefaction Products — Chandra P. P. Singh and Norman L. Carr	659	Prediction of Pressure Behind a Rising Bubble Accelerating from Rest — Madhukar Nilmani	692
Liquefaction of Coal by SRC-II Process. Part IV. Steady-State Thermal Behavior of the Reactor — Chandra P. P. Singh and Norman L. Carr	831	Preparation of High Porosity Catalysts — M. Ternan, R. H. Packwood, R. M. Buchanan and B. I. Parsons	33
Liquefaction of Coal by SRC-II Process. Part V: Dynamic Thermal Behavior of the Reactor — Chandra P. P. Singh and Norman L. Carr	842	Pressure Drop in Partially Fluidized Liquid-Solid Systems — R. P. Vaid and P. Sen Gupta	309
		Pressure Drop, Solids Concentration and Mean Holding Time in Multistage Fluidisation — K. Krishnaiah and Y. B. G. Varma	346

Products of Cumene Cracking on an Amorphous Silica Alumina, The — M. Marczewski and B. W. Wojciechowski	622	and Esteban Chornet	393
Purification of ϵ -Caprolactam by Catalytic Hydrogenation. A Statistical Approach — L. G. Jodra, A. Romero, F. Garcia Ochoa and J. Aracil	319	Study of the Development of Mass Transport via an Electrochemical Flow Visualization Technique — M. S. Quraishi and T. Z. Fahidy	100
Reacteur à electrode volumique à lit fixe: taux de conversion et selectivite — A. Ratel, R. Routie et G. Lacoste	242	Surface Activity of Foam Fractions of a Calcium Lignosulphonate — K. F. Keirstead, L. Caverhill and D. DeKee	680
Reactions and Residence Time Distributions in Motionless Mixers — E. B. Nauman	136	Synergetic Effect of Molybdenum Dioxide on Nickel in the Catalytic Hydrogenation of Benzene — M. Astier, A. Bertrand and S. J. Teichner	40
Recovery of Residual Bitumen from Oil Sand Sludges — C. E. St. Denis and M. A. Kessick	675	Thermodynamics of Ion Exchange as an Adsorption Process — J. Novosad and A. L. Myers	500
Rheology and Tensile Properties of Polypropylene Reinforced with Glycerol-treated Mica — Victor P. Juskey and Charles E. Chaffey	334	Time Dependence in a Three-Dimensional Model of Thermal Pollution in Rivers — T. Aytimur, B. H. Chen and A. F. McMillan	699
Separation of Nitrocellulose Fine Particles from Industrial Effluent with Organic Polymers — Lawrence K. Wang, Maurice Pressman, William W. Shuster, Ray W. Shade, Fusun Bilgen and Thomas Lynch	116	Transfer of Dissolved Gases Through Tubular Membrane — S. K. Achwal	443
Simulation d'un réacteur catalytique à lit fixe (Oxydation du propène) — G. Djelveh, J. B. Gros et R. Bugarel	146	Transfer of Potassium Chloride from n-Butanol to Water, The — Norman H. Sagert and Charles A. Lucy	703
Some Aspects of Liquid-Solid Fluidized Beds — K. V. K. Rao and S. G. Prakash	859	Transfert de chaleur entre une couche fluidisée bidimensionnelle et une paroi — M. Granier, J. P. Riba, et J. P. Couderc	593
Some Characteristics of Concentration Fluctuations in Free Turbulent Jets — E. W. Grandmaison, D. E. Rathgeber and H. A. Becker	212	Transformation of Propene into Acrylonitrile with Nitric Oxide Over Nickel Oxide Alumina Catalyst in a Continuous Stirred Tank Reactor — James Thomas Agbehavi, Denis Rouleau, and Gerard Pajonk	411
Some Ideas on Cracking Catalyst Design — A. Corma and B. W. Wojciechowski	11	Transient Behaviour of Recycle Reactor with Consecutive Reaction — T. Ido, M. Goto, S. Goto and H. Teshima	407
Species Grouping in Multicomponent Adsorption Calculations — Mary Beth Calligaris and Chi Tien	772	Turbulent Mixing in Free Swirling Jets — E. W. Grandmaison and H. A. Becker	76
Stability of Jets in Liquid-Liquid Systems — Yoshiro Kitamura, Hiroyuki Mishima, and Teruo Takahashi	723	UNIFAC and Infinite Dilution Activity Coefficients — P. Alessi, I. Kikic, Aa. Fredenslund and P. Rasmussen	300
Stabilization and Destabilization of Mineral Fines-Bitumen-Water Dispersions in Tailings from Oil Sand Extraction Plants that use the Hot Water Process — E. Stanley Hall and Eric L. Tollefson	812	Upgrading of Delayed and Fluid Cokes from Oil Sand by Desulfurization — E. S. Hall, E. L. Tollefson, Z. M. George and L. Schneider	418
Studies of the Behavior of Disturbance Waves in Annular Two-Phase Flow — Franco Nencini and Paolo Andreussi	459	Usefulness of a Slurry-Type Fischer-Tropsch Reactor for Processing Synthesis Gas of Low Hydrogen-Carbon Monoxide Ratios — Charles N. Satterfield and George A. Huff, Jr.	159
Studies of Molybdena-Alumina Catalysts X Temperature Programmed Desorption of H_2S and Thiophene — R. Ramachandran and F. E. Massoth	17	Vapour-Liquid Equilibrium Measurements for Arctic Gas Plant Design — H. J. Connor, J. G. Spiro and A. E. Pope	324
Study of Agglomeration of Coal-Ash in Fluidized Beds, A — P. Basu	791	Wood Liquefaction: Extended Batch Reactions Using Raney Nickel Catalyst — D. G. B. Boocock, D. Mackay and P. Lee	802
Study of the Catalytic Effects of Impregnated Metals in the Pyrolysis of Peat. A Statistical Analysis — Christian Roy			

INDEX OF AUTHORS

Abou-El-Hassan, M., Reilly, I. G. and Scott, D. S. — Leaching in a Bubble-Column Slurry Reactor	399	Allan, J. C. and Mann, R. — Heat and Mass Transfer Multiplicity in Exothermic Gas Absorption	566
Acharjee, D. K., Jain, R. C., Madhavan, S. and Sen Gupta, P. — Optimum Performance Data for the Leaching of Roasted Chalcopyrite in a Jet Contactor	516	Alran, C., Costes, J. et Couderc, J. P. — Etude des Caractéristiques de l'Ecoulement créé par une Turbine à Barreaux Croisés dans une Cellule de Flottation — Influence du Nombre de Barreaux et de la Viscosité du Liquide. I. Détermination de la Capacité de Pompage et de l'Intensité de Turbulence	105
Achwal, S. K. — Transfer of Dissolved Gases Through Tubular Membrane	443	Alran, C., Costes, J. et Couderc, J. P. — Etude des Caractéristiques de l'Ecoulement créé par une Turbine à Barreaux Croisés dans une Cellule de Flottation — Influence du Nombre de Barreaux et de la Viscosité du Liquide. II. Puissance Consommée et Analyse Spectrale	110
Agbehavi, James Thomas, Pajonk, Gerard and Rouleau, Denis — Transformation of Propene into Acrylonitrile with Nitric Oxide Over Nickel Oxide Alumina Catalyst in a Continuous Stirred Tank Reactor	411	Anagbo, P. E. — Bubble Deformation in High-Velocity Gas Injection	220
Agudo, A. L., Asensio, A. and Corma, A. — The Effect of Chromium Exchange Level on the Cracking and Dehydrocyclization of n-Heptane on CrHNaY Zeolite Catalysts. Kinetic and Spectroscopic Study	50	Anderson, Susan J., Sills, Suzanne L., Norman and Woods, D. R. — Evaluation of Capital Cost Data: Onsite Utilities (Industrial Gases)	173
Alessi, P., Colussi, I., Kikic, I. and Visalberghi, Orlandini M. — Liquid-Liquid Equilibria for Acetonitrile-Methanol-Paraffin and Acetonitrile-Ethanol-Paraffin Systems	168	Andreussi, Paolo and Nencini, Franco — Studies of the Behavior of Disturbance Waves in Annular Two-Phase Flow	459
Alessi, P., Fredenslund, Aa, Kikic, I., and Rasmussen, P. — UNIFAC and Infinite Dilution Activity Coefficients	300	Aracil, J., Jodra, L. G., Ochoa, F. Garcia and Romero, A.	

— Purification of ϵ -Caprolactam by Catalytic Hydrogenation. A Statistical Approach	319	Buchanan, R. M., Packwood, R. H., Parsons, B. I. and Terman, M. — Preparation of High Porosity Catalysts	33

SUBJECT INDEX (1982)

Absorption, Gas, Heat and Mass Transfer in	566	Boiling Point, Normal, of Hydrocarbons; Estimation of Vapour Pressure from	707
Absorption, Chlorine into Aqueous Sodium Carbonate Solution	487	Breakthrough Analysis of Noncatalytic Solid — Gas Reactions	314
Absorption, Chlorine in Urea Aqueous Solution	440	Bronsted/Lewis Acid Sites on Gas Oil Cracking	11
Absorption of SO ₃ in Calcium and Magnesium Oxides, Kinetics of	796	Bubble Columns with Downcomer, Hydrodynamic and Mass Transfer Characteristics of	353
Acetonitrile-Ethanol-Paraffin, Liquid-Liquid Equilibria ..	168	Bubble Deformation in High-Velocity Gas Injection	220
Acidophilic Fungus Single-Cell Protein from Peat Hydrolyzate	532	Bubbles, Rising, Prediction of Pressure	692
Acrylonitrile, Catalytic Transformation of Propene in CSTR	411	Bulk Modulus of Diesel Fuel, Dependence on Temperature and Pressure	710
Active Metal Sites Determination, Selective Gas Chemisorption for	23	n-Butanol to Water, Transfer of Potassium Chloride from	703
Activity Coefficients, UNIFAC Parameters Estimation at Infinite Dilution	300	Calcium Lignosulphonate, Surface Activity of Foam Fractions	680
Adsorption Columns with Bacterial Growth Outside Adsorbents	363	Capital Cost Data on Site Utilities for Industrial Gases ..	173
Adsorption Isotherms for Acid and Basic Dyes	377	ϵ -caprolactam, Catalytic Hydrogenation, Purification of	319
Adsorption Process, Thermodynamics of Ion Exchange ..	500	Capsules, Cylindrical, Hydrodynamic Transport of, in a Vertical Pipeline	713
Aerobic Treatment of Synthetic Residual Dairy Waters ..	635	Carbon Dioxide, Desorption of with Absorption of Chlorine into Aqueous Sodium Carbonate Solutions	310
Agglomeration of Coal-Ash in Fluidized Beds	791	Carbon Monoxide, Methanation of, over Alumina Supported Ni-Cu Catalysts	613
Agitation of Pseudoplastic Fluids	738	Carbon Removal of Valeric Acid from Aqueous Solution with	363
Air Core Formation in Swirl Atomisers	153	Catalysis, Heterogeneous, Evaluation of	123
Alkaline Aqueous Media, Ozonation of Organic Compounds in	853	Catalyst, Alumina Supported Ni-Cu, Methanation of Carbon Monoxide over	613
Alkaline Catalysts for Liquefaction of Aspen Poplar Wood	289	Catalyst Effectiveness in Trickle-Bed Reactors, Liquid Wetting Effect on	282
Ammonia Synthesis, Bulk-Phase Nitrogen Dissolution in Iron,	809	Catalyst Pellet with Bimodal Kinetics, Effectiveness and Performance	522
Amorphous Silica Alumina, Products of Cumene Cracking on	622	Catalyst Poisoning, Chemistry of	127
Amorphous Silica Aluminas, Active Sites in Cumene Cracking	617	Catalytic Effects of Impregnated Metals in Peat Pyrolysis	393
Analysis of Fluidization in Horizontal Dense-Phase Flow	83	Catalytic Transformation of Propene into Acrylonitrile in CSTR	411
Analytical and Numerical Solutions in Modeling of Shallow Fluidized Bed Reactors	781	Caustic Extraction Effluent using Calcium, Colour Removal	450
Annular-to-Wavy Flow Transition during Condensation inside Horizontal Tubes	475	Chalcophyrite Concentrate, Leaching of Roasted, in a Jet Contactor	516
Annular Two-Phase Flow, Disturbance Waves in	459	Characterization of Zeolitic Acidity, Cracking of n-Butane	44
Arc Plasma, Nitrogen Transferred; Operating Characteristics and Energy Distribution	822	Chemical Dispersant, Oil, Water Systems, Interfacial Tensions of	546
Arctic Gas Plant Design, Vapour-Liquid Equilibrium, Measurements for	324	Chemical Equilibrium Model for Interfacial Activity of Crude Oil	305
Aspen Poplar Wood, Liquefaction of	289	Chlorine, Absorption of, into Aqueous Sodium Carbonate Solutions with Desorption of Carbon Dioxide	487
Athabasca Oil Sand, Microscopic Structure of	538	Chromatographic Study of Diffusion, Single Gases and Binary Mixtures, in 4A, 5A Zeolites	493
Atmospheric Oxidation of SO ₂ , using Gold Tracer	141	Coal and Coal Liquids, Estimation of Entropies and Availabilities	551
Axial Dispersion and Heat Transfer in Batch Bubble Columns	436	Coal-Ash Agglomeration in Fluidized Beds	791
Axial Dispersion in Reciprocating Plate Extraction Columns	603	Coal Liquefaction by SRC-II Process, Reactor Thermal Behaviour	842
Axisymmetric Two-Phase Jet Entrainment	433	Coal Liquefaction by SRC-II Process, Kinetic Model ...	248
Bacterial Growth Outside Adsorbents, Adsorption Columns with	363	Coal Liquefaction by SRC-II Process; Reactivity of Liquefaction Products	659
Batch Bubble Columns, Heat Transfer and Axial Dispersion in	436	Coal Liquefaction by SRC-II Process, Simulation of	261
Batch Wood Liquefaction Reactions using Raney Nickel Catalyst	802	Coal Liquefaction by SRC-II Process; Steady State Thermal Behaviour of	831
Binary Particle Mixtures, Minimum Spouting Velocity for	694	Coating Flows with Interfacial Air Drag	453
Bidimensional Pseudo-Homogeneous Model for Catalytic Oxidation of Propene	146	Cokes (Decay and Fluid) from Oil Sand, Desulfurization Upgrading	418
Biomass Concentration Determination in Fermentation ..	163	Combustion of Low Heating Value Fuels and Wastes in the Spouted Bed	528
Biological Reactors, Kinetic Parameter Determination ...	608		
Bioreactors, Effect of Coupling of Mixing and Microbial Kinetics	384		
Bitumen, Recovery of Residual, from Oil Sand Sludges	675		

Computer Control of a Reciprocating Plate Extraction Column	556	Equilibria Between Cupric and Hydrogen Ions in a Cation Exchange Membrane	642
Concentration Fluctuations in Free Turbulent Jets	212	Equilibrium Bed Concentration of Solids, Elutriation from Liquid Fluidized Bed Systems	470
Concentric Jet with Particles in the Secondary Stream, Entrainment by	589	Estimation of Coal and Coal Liquid Entropies, Availabilities	551
Condensation Inside Horizontal Tubes, Flow Pattern Transition	475	Estimation of Vapour Pressure from Normal Boiling Point of Hydrocarbons	707
Consecutive Reaction Studies in Recycle Reactor	407	Ethylene Oxyhydrochlorination by CuCl_2 supported on $\alpha\text{-Al}_2\text{O}_3$	55
Correlations for Molecular Diffusivities in Liquids	295	Exchange Equilibria between Cupric and Hydrogen Ions in a Cation Exchange Membrane	642
Corresponding States Law, Assimilation of Van der Waals' Fluid in	446	Extraction Column, Axial Dispersion Parameters for	603
Covellite (CuS) Leaching in Bubble-Column Slurry Reactor	399	Extraction, Liquid-Liquid, by a Suspended Slug	569
Cracking and Dehydrocyclization of n-Heptane over Y Zeolites	50	Fermentation, Indirect Biomass Concentration Determination in	663
Cracking Catalyst Design, Effect of Bronsted/Lewis Acid Sites	11	Filtration, Hydraulic Behavior of Filter Fabrics	226
Cracking, Chemistry of Catalyst Poisoning	127	Finite Difference Method for Prediction of Pressure behind a Rising Air Bubble	692
Cracking of n-Butane in Fixed Zeolite Bed, Characterization of Acidity	44	Fischer-Tropsch, Slurry-Type Reactor, Usefulness	159
Crude Oil, Chemical Equilibrium Model for Interfacial Activity of	305	Fissured Porous Media, Modeling of Flow Nonuniformities using Packed Beds	61
CSTR, Catalytic Transformation of Propene into Acrylonitrile	411	Fixed Bed Catalytic Reactor, Oxidation of Propene	146
Cumene Cracking, Nature of Amorphous Silica Alumina Active Sites	617	Fixed Zeolite Bed to Characterize Zeolitic Acidity, Cracking of n-Butane	44
Cumene Cracking on an Amorphous Silica Alumina, Products from	622	Flash Pyrolysis of Aspen-Poplar Wood	666
Dairy Waters, Synthetic Residual, Aerobic Treatment	635	Flocculation, Separation of Nitrocellulose Fine Particles with Organic Polymers	116
Deactivation of Ni Catalysts, Methanation of CO	4	Flotation Cell, Characteristics of Turbine Discharge Flow Study in	105
Dead-Time Compensation in Generalized PID Algorithms	425	Flotation Cell, Viscous Energy Dissipation Rate and Turbulent Diffusion Coefficient	110
Design of Non-Isothermal Tube-Wall Reactor with Volume Change	627	Flotation, Spherical and Cylindrical Particles Weight Studies	235
Desorption of Carbon Dioxide with Absorption of Chlorine into Aqueous Sodium Carbonate Solutions and	487	Flow Non-Uniformities in Fissured Porous Media, Modeling	61
Desulfurization, Upgrading of Delayed and Fluid Cokes from Oil Sand	418	Flow Pattern Transition, During Condensation inside Horizontal Tubes	475
Diesel Fuel Bulk Modulus, Dependence on Temperature and Pressure	710	Flow, Two-Phase Annular, Disturbance Waves	459
Diffusion of Acid and Basic Dyes, Adsorption Study	377	Fluid Friction in Dense-Phase Pipeline Flow, Analysis	83
Diffusion of Single Gases and Binary Mixtures in 4A, 5A Zeolites, Chromatographic study	493	Fluidization (Multistage) Effect of Pressure Drop, Solid Concentration and Mean Holding Time	346
Diffusivities in Liquids, Correlations for	295	Fluidization, Pressure Drop in Partially Fluidized Liquid-Solid Systems	309
Discrete Stochastic Controllers, Generalized PID Algorithms with Dead-Time Compensation	425	Fluidized Beds, Agglomeration of Coal-Ash in	791
Dissolved Gases through Tubular Membrane, Transfer of	443	Fluidized Bed, Two-Dimensional, Heat Transfer between a Wall and	593
Disturbance Waves in Annular Two-Phase Flow	459	Foam Fractions of a Calcium Lignosulphonate, Surface Acitivity	680
Dynamic Analysis and Simulation of a Helium-Heated Steam Reformer	759	Forced Convection Heat Transfer in Low Prandtl Number Turbulent Flows	482
Dynamic Thermal Behaviour of SRC-II Coal Liquefaction Reactor	842	Free Swirling Turbulent Jets, Study of Nozzle Fluid Concentration Field	76
Effectiveness and Performance of a Catalyst Pellet with Bimodal Kinetics	522	Free Turbulent Jets, Concentration Fluctuation in	212
Electrochemical Reactor, Stirred by Evolved Counter Electrode Gases, Mass Transfer in	767	Freon-12 Exposure, Effect on Sieving Property of 4A Zeolite	577
Electrochemical Visualization Technique for Mass Transfer Patterns in Natural Convection	100	Fuels and Wastes, Combustion in Spouted Beds	528
Elutriation of Solids from Liquid Fluidized Bed Systems, Onset of	466	Gas Absorption, Heat and Mass Transfer Multiplicity	566
Elutriation of Solids from Liquid Fluidized Bed Systems, Prediction of Equilibrium Bed Concentration	470	Gases, Single and Binary Mixtures, Diffusion in 4A, 5A Zeolites	493
Energy Distribution and Operating Characteristics in a Nitrogen Transferred Arc Plasma	822	Generalized PID Algorithms with Dead-Time Compensation of Discrete Stochastic Controllers	425
Entrainment by a Concentric Jet with Particles in the Secondary Stream	589	Glycerol Reinforced Polypropylene, Rheology and Tensile Properties of	334
Entrainment by an Axisymmetric Two-Phase Jet	433	Gold Tracer for Atmospheric Oxidation of SO_2	141
Entropies and Availabilities of Coals and Coal Liquids, Estimation of	551	Gradientless Reactor, Heterogeneous Catalysis Rate Parameter Determination	123
		Heat and Mass Transfer Multiplicity in Exothermic Gas Absorption	566

Heat Transfer and Axial Dispersion in Batch Bubble Columns	436	Kraft Pulp Mill, Colour Removal by Caustic Extraction ..	450
Heat Transfer between a Two-dimensional Fluidized Bed and a Wall	593	Laminar Falling Film Flow and Heat Transfer Characteristics in Horizontal Tubes	172
Heat Transfer Characteristics and Laminar Falling Film Flow in Horizontal Tubes	172	Laminar Flow Past a Permeable Sphere	202
Heat Transfer in Low Prandtl Number Turbulent Flows ..	482	Leaching, Dissolution of Synthetic Covellite (CuS) in Ammoniacal Solution in Slurry Reactor	399
Heavy Water Plants, Mass Transfer Modelling	504	Leaching of Roasted Chalcopyrite Concentrate in a Jet Contactor	516
Helium-Heated Steam Reformer, Analysis and Simulation	759	Lignin Related Organic Compound Removal by Caustic Extraction	450
Heterogeneous Catalysis Rate Parameters, Determination of	123	Limestone (Calcined) Reaction with Su_2 , Breakthrough Analysis	314
High Porosity Alumina Catalyst Supports, Preparation of	33	Liquefaction of Aspen Poplar Wood, Catalytic Rocking Batch Reactor	289
High-Velocity Gas Injection, Bubble Deformation Mechanism	220	Liquid Diffusivities, Correlations for Prediction	295
Holdup in a Reciprocating Plate Extraction Column, Computer Control of	556	Liquid Film Mass Transfer Coefficients, Estimation of ..	94
Horizontal Dense-Phase Flow, Analysis of Fluid Friction of	83	Liquid Fluidized Bed Systems, Onset of Solid Elutriation	466
Horizontal Tubes, Flow Pattern Transition During Condensation inside	475	Liquid Fluidized Bed Systems, Prediction of Equilibrium Bed Concentration	470
Hydraulic Behavior of Synthetic Non-Woven Filter Fabrics	226	Liquid-Liquid Equilibria For Acetonitrile-Ethanol-Paraffin Systems	168
Hydrocarbons, Photocatalytic Oxidations of, on Ta_2O_5/SiO_2	574	Liquid-Liquid Equilibria For Acetonitrile-Methanol-Paraffin Systems	168
Hydrodynamic and Mass Transfer Characteristics of Bubble Columns with Downcomer	353	Liquid-Liquid Equilibria for Ternary Mixtures	168
Hydrodynamic Transport of Cylindrical Capsules in a Vertical Pipeline	713	Liquid-Liquid Extraction by a Suspended Slug	569
Hydrodynamic Turbulence Studies using Thermal Anemometry	748	Liquid-Liquid Systems, Stability of Jets in	723
Hydrogenation of Benzene, Synergetic Effect of MoO_3 on N ..	40	Liquid-Solid Systems, Pressure Drop in Partially Fluidized	309
Hydrogenation, Purification of E-Caprolactam	319	Liquid-Vapour Equilibrium Measurements for Arctic Gas Plant Design	324
H_2S /Thiophene — Temperature Programmed Desorption on Mo/Al_2O_3 , $CoMo/Al_2O_3$	17	Liquid Wetting, Catalyst Effectiveness in Trickle-Bed Reactors	282
Hydrocarbons, Estimation of Vapour Pressure	707	Mass Transfer and Terminal Velocity of a Fluid Sphere in Non-Newtonian Fluid, Surfactant Effect	87
Hydrolysis of Diethyl Succinate in Recycle Reactor	407	Mass Transfer in an Electrochemical Reactor, Stirred by Evolved Counter Electrode Gases	767
Ion Exchange, as an Adsorption Process, Thermodynamics of	500	Mass Transfer Modelling for Gs Heavy Water Plants, Sieve Tray Point Efficiency	504
Impregnated Metal in Pyrolysis of Peat, Catalytic Effects of	393	Mass Transfer Modelling for Gs Heavy Water Plants, Tray Efficiency	510
Industrial Gases, onsite Utilities, Capital Cost Data Evaluation	173	Mass Transfer Patterns in Natural Convection, Electrochemical Visualaization Technique	100
Interfacial Activity of Crude Oil in Aqueous Alkaline Solution	305	Mechanical Considerations of Photocatalytic Oxidation Over Semiconductor Oxides	27
Interfacial Activity of Petroleum Sulphonates, Enhancement of	331	Metal Oxide Catalysis, Active Metal Sites by Selective Gas Chemisorption	23
Interfacial Air Drag, Coating Flows with	453	Methanation of Co on Ni Catalysts, Deactivation Studies in ..	4
Interfacial Tension and Phase Behaviour Characteristics of Petroleum Sulphonate/Lignosulphonate Mixtures	684	Methanation of Carbon Monoxide over Alumina Supported Ni-Cu Catalysts	613
Interfacial Tensions of Oil, Water, Chemical Dispersant Systems	546	Microbial Kinetics and Mixing, Bioreactors Evaluation	384
Jet, Concentric Entrainment with Particles in the Secondary Stream	589	Microscopic Structure of Athabasca Oil Sand	538
Jet, Contactor, Leaching of Roasted Chalcopyrite Concentrate in	516	Minimum Spouting Velocity for Binary Particle Mixtures	697
Jets in Liquid-Liquid Systems	723	Mixers, Motionless, RTD	136
Jets in Power Law Non-Newtonian-Newtonian Liquid Systems	732	Mixing and Microbial Kinetics, Evaluation of Bio Reactors	384
Kenics Static Mixer, Reactions and Residence Time Distribution	136	Model of Velocity Profile for Turbulent Pipe-Flow of Power-Law Fluids	694
Kinetic Study of Cracking and Dehydrocyclization of N-Heptane on $CrHNaY$ Zeolite	50	Model, One-Dimensional, of Plug Flow Pneumatic Conveying	531
Kinetic Parameter Determination in Monoculture and Mosubstrate Biological Reactors	608	Model, Three-Dimensional, of Thermal Pollution in Rivers, Time Dependence in	699
Kinetics, Bimodal Effectiveness and Performance of a Catalyst Pellet with	522	Modeling of Flow Non Uniformities in Fissured Porous Media	61
Kinetics of Absorption of SO_3 in Calcium and Magnesium Oxides	796	Modeling of Shallow Fluidized Bed Reactors	272
		Modeling of Shallow Fluidized Bed Reactors, Analytical and Numerical Solutions	781

Modeling, Mass Transfer, For Gs Heavy Water Plants, Sieve Tray Point Efficiency	504	Photocatalytic Oxidation over Semiconductor Oxides, Mechanistic Considerations	27
Modeling, Mass Transfer, For Gs Heavy Water Plants; Tray Efficiency	510	Plug Flow Pneumatic Conveying, One-Dimensional Model	581
Molybdena-Alumina Catalysis, Temperature Programmed Desorption of H ₂ S/Thiophene	17	Point Efficiency on Gs Heavy Water Plant Sieve Trays, Mass Transfer	504
Molybdenum Dioxide on Ni, Synergetic Effect of	40	Pollution, Thermal, in Rivers, Time Dependence	699
Motionless Mixers, Reaction and Residence Time Distribution in	136	Polypropylene, Rheology and Tensile Properties	334
Multicomponent Adsorption Calculations, Species Grouping in	772	Porous Catalysts, Preparation	33
Nickel Catalyst, Transformation of Propene into Acrylonitrile in Continuous Stirred Tank Reactor	411	Potassium Chloride Transfer from n-Butanol to Water ...	703
Nickel Catalysts, Methanation of CO, Deactivation Studies in	4	Power-Law Fluids in Turbulent Pipe-Flow, Velocity Profile Model	694
Ni-Cu Catalysts, Alumina Supported, Methanation of Carbon Monoxide Over	613	Power-Law Non-Newtonian — Newtonian Liquid Systems, Breakup of Jets	732
Nitrocellulose Fine Particles, Separation from Industrial Effluent	116	Pressure Behind a Rising Air Bubble, Prediction of	692
Non-Isothermal Tube-Wall Reactor Design with Volume Change	627	Products of Cumene Cracking on an Amorphous Silica Alumina	622
Nitrogen Dissolution in Iron in Catalytic Ammonia Synthesis	809	Pseudoplastic Fluids, Agitation by a Two-Blade Stirrer ..	738
Non-Newtonian Fluid, Surfactant Effect on Terminal Velocity and Mass Transfer	87	Pyrolysis, Flash, of Aspen-Poplar Wood	666
Numerical and Analytical Solutions in Modeling of Shallow Fluidized Bed Reactors	781	Pyrolysis of Peat, Catalytic Effects of Impregnated Metals in	393
Oil Sand, Athabasca, Microscopic Structure	538	Rasching Ring Packed Column, Liquid Film Mass Transfer Coefficients	87
Oil Sand, Desulfurization to Upgrade Delayed and Fluid Cokes	418	Raney Nickel Catalyst for Wood Liquefaction in Batch Reactions	802
Oil Sand Extraction Plants, using Hot Water Process ...	812	Reactivity of SRC-II Coal Liquefaction Products	659
Oil Sand Sludges, Recovery of Residual Bitumen	675	Reactor, Continuous-Flow, Aerobic Treatment of Synthetic Residual Dairy Waters in	635
Oil, Water, Chemical Dispersant Systems, Interfacial Tensions	546	Reactor, Thermal Behaviour of, for SRC-II Coal Liquefaction Process	842
One-Dimensional Model of Plug Flow Pneumatic Conveying	581	Reactor, Non-Isothermal Tube-Wall, with Volume Change, Design for	627
On-Site Utilities (Industrial Gases) Capital Cost Data Evaluation	173	Reactors, Biological, Kinetic Parameter Determination ..	608
Operating Characteristics and Energy Distribution in a Nitrogen Transferred Arc Plasma	822	Reactor, Shallow Fluidized Bed, Modeling of	781
Optimization of CuCl ₂ Based Catalysts for Ethylene Oxidation	55	Reactor, Steady State Thermal Behaviour of, for SRC-II Coal Liquefaction Process	831
Organic Compounds, Ozonation of, in Alkaline Aqueous Media	853	Reciprocating Plate Extraction Column, Axial Dispersion in	603
Organic Polymers for Separation of Nitrocellulose Fine Particles	116	Reciprocating Plate Extraction Column, Computer Control of Holdup	556
Oxidation of Propene, Bidimensional Pseudo Homogeneous Model	146	Recovery of Copper with a Cation Exchange Membrane, Equilibria	642
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Recovery of Copper with a Cation Exchange Membrane, Transfer Rates	650
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Recovery of Residual Bitumen from Oil Sand Sludges ..	675
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Recycle Reactor, Consecutive Reaction to Study Transient Behavior	407
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Residence Time Distribution and Reactions in Motionless Mixers	136
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Rheology and Tensile Properties of Reinforced Polypropylene	334
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Selective Gas Chemisorption, Active Metal Sites Determination	23
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Semiconductor Oxides, Photo Catalytic Oxidation, Mechanistic Consideration	27
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Separation Efficiency in Packed Distillation Columns, Pressure Effect	155
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Shallow Fluidized Bed Reactors	272
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Shallow Fluidized Bed Reactor, Analytical and Numerical Solutions of Model	781
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Silica Alumina, Amorphous, Products of Cumene Cracking on	622
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Silica Aluminas, Amorphous, Nature of Active Sites in Cumene Cracking on	617
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Silver Recovery From Sulfuric Acid Solution	242
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Simulation and Dynamic Analysis of a Helium-Heated Steam Reformer	759
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Simulation, Coal Liquefaction by SRC-II Process	261
Oxidation, Photocatalytic, of Hydrocarbons on Ta ₂ O ₅ /SiO ₂	574	Single-Cell Protein, Acidophilic Fungus, from Peat Hydrolyzate	532

Sludges, Oil Sand, Recovery of Residual Bitumen from	675	Thermodynamics of Ion Exchange as an Adsorption Process	500
Slurry Fischer-Tropsch Reactor, Low H_2/CO Ratio Synthesis Gas Processing in	159	Thiophene/ H_2S — Temperature Programmed Desorption on Mo/Al_2O_3 , $CoMo/Al_2O_3$	17
Slurry Reactor (Bubble-Column), Dissolution of Synthetic Covellite (CuS)	399	Time Dependence in a Three-Dimensional Model of Thermal Pollution in Rivers	699
Sodium Carbonate Aqueous Solutions, Absorption of Chlorine	487	Time On-Stream Theory and Chemistry of Catalyst Poisoning	127
Solid-Gas Reactions, Breakthrough Analysis	314	TiO_2 , Semiconductor Oxides on Photo Catalytic Oxidation, Mechanistic Considerations	27
Solvent Extraction, Computer Control of Holdup in a Reciprocating Plate Column	556	Transfer of Potassium Chloride from n-Butanol to water	703
Species Grouping in Multicomponent Adsorption Calculations	772	Transfer Rate of Copper and Hydrogen Ions in a Cation Exchange Membrane	650
Spouted Bed Combustion of Low Heating Value Fuels and Wastes	528	Transient Behavior of Recycle Reactor with Consecutive Reaction	407
Spouting Velocity, Minimum, for Binary Particle Mixtures	697	Tray Efficiency on Gs Heavy Water Plant Sieve Trays, Mass Transfer Modelling	510
SRC-II Process, Coal Liquefaction Simulation	261	Trickle-Bed Reactors, Liquid Wetting Effect on Catalyst Effectiveness	282
SRC-II Process, Dynamic Thermal Behaviour of Reactor for	842	Tubular Membrane, Dissolved Gases Transfer	443
SRC-II Process, Kinetic Model of Coal Liquefaction	248	Turbine Discharge Flow, Effects of Flotation Cell and Bars and Viscosity	105
SRC-II Process, Reactivity of Products from	659	Turbine Discharge Flow Study in a Flotation Cell	110
SRC-II Process, Steady State Thermal Behaviour of Reactor for	831	Turbulence Studies Using Thermal Anemometry	748
Stability of Jets in Liquid-Liquid Systems	723	Turbulent Diffusion Coefficient, Viscous Energy Dissipation Rate in Flotation Cell	110
Statistical Approach of Purification of ϵ -Caprolactam by Catalytic Hydrogenation	319	Turbulent Flows, Low Prandtl Number, Forced Convection Heat Transfer	482
Steady-State Thermal Behaviour of SRC-II Coal Liquefaction Reactor	831	Turbulent Mixing in Free Swirling Jets	76
Steam Reformer, Helium-Heated, Dynamic Analysis and Simulation of	759	Turbulent Pipe-Flow of Power-Law Fluids	694
Stirrer, Two-Blade, Agitation of Pseudoplastic Fluids	738	Two Dimensional Fluidized Bed and a Wall, Heat Transfer Between	593
Stratified Slurries Flow Through Horizontal Venturi Meters	342	Two-Phase Flow, Annular, Disturbance Waves In	459
SO_2 , Atmospheric Oxidation	141	UNIFAC Parameters Estimation From Infinite Dilution Activity Coefficients	300
SO_2 Reaction with Calcined Limestone, Breakthrough Analysis	314	Urea (Aqueous Solution), Absorption of Chlorine in	440
Sulfuric Acid, Recovery of Silver	242	Valeric Acid Removal from Aqueous Bacteria Solution with Granular Carbon	363
Sulfur Trioxide Absorption in Calcium and Magnesium Oxides, Kinetics of	796	Vapour-Liquid Equilibrium Measurements for Arctic Gas Plant Design	324
Sulphite Spent Liquids, Enhancement of Interfacial Activity of Petroleum Sulphonates, Addition of	331	Vapour Pressure Estimation from Normal Boiling Point of Hydrocarbons	707
Surface Activity of Foam Fractions of a Calcium Lignosulfonate	680	Velocity Profile Model for Turbulent Pipe-Flow of Power-Law Fluids	694
Surface, Maximum weight of Particles at Fluid/Liquid Interface	235	Venturi Meters (Horizontal) Flow of Stratified Slurries	342
Surfactant Effect on Terminal Velocity of and Mass Transfer from a Fluid Sphere in a Non-Newtonian Fluid	87	Vertical Pipeline, Hydrodynamic Transport of Cylindrical Capsules	713
Suspended Slug Liquid-Liquid Extraction	569	Viscous Energy Dissipation Rate, Turbulent Diffusion Coefficient in Flotation Cell	110
Swirl Atomisers, Formation of Air Core in	153	Water, Oil, Chemical Dispersant Systems, Interfacial Tensions	546
Synergetic Effect of MoO_3 on Ni, Hydrogenation of Benzene	40	Water, Transfer of Potassium Chloride from n-Butanol	703
Synthesis Gas of Low H_2/CO Ratios Processing in Slurry Fischer-Tropsch Reactor	159	Wood, Flash Pyrolysis of Aspen-Poplar	666
Synthetic Non-Woven Filter Fabrics, Hydraulic Behavior	226	Wood Liquefaction with Raney Nickel Catalyst in Batch Reactions	802
Tailing Dispersions, from Oil Sand Extraction Plants Using the Hot Water Process	812	Zeolites, 4A and 5A, Chromatographic Study of Diffusion of Single Gases and Binary Mixtures	493
Ta_2O_5/SiO_2 , Photocatalytic Oxidation of Hydrocarbons on	574	Zeolite, 4A, Effect of Freon-12 Exposure on Sieving Property	577
Temperature Programmed Desorption of H_2S and Thiophene on Mo/Al_2O_3 , $CoMo/Al_2O_3$	17	Zeolites Y for Cracking and Dehydrocyclization of n-Heptane	50
Terminal Velocity of and Mass Transfer from a Fluid Sphere in a Non-Newtonian Fluid, Surfactant Effect	87		
Thermal Anemometry Applied to Hydrodynamic Turbulence	748
